

MEETING MINUTES February 25 2016

Present:

Monika, Radu, Flavius, Matt, Cipi, Yuriy, Alixandru, Iacob, Francis, Patrice, Flavius, Matiss, Mahmoud, Luci

Luci's birthday is March 11 and Sandu's is March 30 Happy Birthday

Matiss is leaving us at the end of this month. He will be moving back to his Province. Have a safe trave and we really enjoyed having you as our workmate!

Say hello to Lucas he will not be replacing Matiss but he will help out while we look for a suitable replacement. He has some experience in interior contracting finishing so is good with tools. Please take him under your wings and hep him out whenever he needs.

The roof has started leaking. We now have about 3 leaky spots. Landlord has been notified and they say the whole building has the same issues so we need to be patient. Please make sure to store doors, cabinets hardware etc. Away from the leaks for now. Also place buckets until we can get this fixed.

The Fire Department is still not happy with our spray booth. Because our building is not monitored any central station they want us to upgrade a few things. We need to install an electric bell to indicate if there is any sprinkler activation, apparently a water motor gong on the wall by the sprinkler room will do the trick The control valve used on the spray booth does not comply with the 5 second rule outlined in NFPA 13 and must be replaced.

We contracted Vanco to do the job.

Also the Fire Department wants us to supply them with a Fire Safety Plan. Monika will look into it.
