

Monthly Meeting 4 January 2022

Attendance: Gabriel, Monika, Matt, Flavius , Andrea,Radu, Lucas, Ajmer,Nicu, Iacob, Luci,Ajmer,Mario,

Happy New Year. Hope everyone had a good time over the holidays. Unfortunately Jeff has cold symptoms so he won't be joining us. It's probably just a cold as he went camping in minus 35 degrees last week but he is staying home until he recovers.

We have a lot of deliveries this week. Salzberg, Quesnel,Segev and Dogwood only today. Please make sure not to overlap any items, don't rush, take your time to avoid any misplaced items, things accidentally falling and getting damage as well as injury.

Please help the delivery crew with the loading of the heavier pieces. Especially that Segev super large pantry.

We know , the heater by the sanding department broke down again and it's cold. Kendall will stop by this week and see what he can do to fix it. Gabi will place a floor heater there for now. Please be aware of the cord on the floor. Don't trip on it.Also keep the area around it clear. Just heard from someone in the industru that A & P Cabinets from Vancouver got a \$12,000 fine for circumventing the blade guards on their table saw. A worker was seriously injured.

Another company Van-Isle Millwork & Kitchens Ltd from Courtenay was fined over \$11,000 for the same reason. I know this is not an issue for us anymore and everyone knows not to take off the blade guard but still, reminder to always keep the guards on and notify Matt or Gabriel if for some reason you think you cannot use the guard for a specific procedure. Thanks !!!

Next safety meeting February 8,2022
